

CSM Program

Corporate Security Management

.....Affordable Security Management.....

Not every company can afford a full-time security advisor.

The CSM Program offers a cost-effective alternative to security management that can cost as little as a few hundred dollars per month.

Designed to create a safe and secure work environment, the CSM Program will complement existing health and safety programs by working one-on-one with employees.

.....Powerful Risk Management Tool....

The CSM Program can identify risks and manage security issues such as;

- Internal/external theft & fraud
- Client and company confidentiality
- Potential violence or harassment

SECURITY MANAGEMENT CONSULTING INC.

.....Custom-Designed to Suit Your Company's Needs.....

The basic CSM program places a security advisor on site a minimum of twice a month. However, as requirements change so does the program.

The key is employee participation, and by meeting with Management, Staff and Contractors, the whole company becomes involved in the solutions to your security concerns.

.....Can You Get Away With No Security?.....

Your company could be at risk and you might not even realize it.

Be prepared with the CSM Program which will provide affordable security management.
